

Illinois Juvenile Detention Data Report

Calendar Year 2016

The Illinois Juvenile Justice Commission (IJJC) is an advisory group responsible for administering federal juvenile justice grants, ensuring compliance with the Juvenile Justice and Delinquency Prevention Act, and advising the Governor and General Assembly on matters of juvenile justice. More information about IJJC is available at <http://ijjc.illinois.gov>.

The IJJC commissioned the Center for Prevention Research and Development (CPRD) within the Institute of Government and Public Affairs (IGPA) at the University of Illinois, Urbana-Champaign, to create this report. CPRD seeks to support public policy in three ways: improving state and community capacity for prevention; improving prevention and educational practices through research and evaluation; and improving policies and decision making. More information about CPRD is available at <http://www.cprd.illinois.edu>

INTRODUCTION MATERIALS

INTRODUCTION TO THE LEGAL BASIS FOR JUVENILE DETENTION IN ILLINOIS

Illinois Juvenile Detention Data Report – Calendar Year 2016 contains a wealth of data about secure detention for juveniles in Illinois. This introduction summarizes the legal basis for detention and the ways detention is used in the state.

For the purpose of this report, “detention” and “detention center” refer to short-term locked facilities for juveniles, which are operated by county government. They are the juvenile court equivalent of county jails. The Illinois Department of Juvenile Justice operates separate correctional facilities, known as Illinois Youth Centers, which are the juvenile court equivalent of state prisons.

The Juvenile Court Act’s statement of purposes for the laws addressing delinquent youth has three principles pertinent to the question of when to remove a youth from home and place him or her in a locked facility:

[J] Juvenile justice policies developed pursuant to this Article shall be designed to:

(b) Provide secure confinement for minors who present a danger to the community and make those minors understand that sanctions for serious crimes, particularly violent felonies, should be commensurate with the seriousness of the offense and merit strong punishment;

(d) Provide programs and services that are community-based and that are in close proximity to the minor’s home;

(e) Allow minors to reside within their homes whenever possible and appropriate and provide support necessary to make this possible.

(705 ILCS 405/5-101)

This clearly limits secure confinement to (1) situations when a youth cannot remain in his or her home or be served in the community because of the danger posed to the community or (2) as a sanction for serious crimes, particularly violent felonies.

There are two basic ways detention is used. First, detention is most commonly used “pre-adjudication” (before a finding of guilt) and “pre-disposition” (before there is a sentence). Second, detention can also be used as part of a sentence or as a sanction for not complying with court orders. Different legal standards and time-frames apply to these different uses.

For pre-adjudication and pre-disposition detention, the Juvenile Court Act allows detention only when there is probable cause that allegations are true and when there is “immediate and urgent necessity” to detain for the protection of the youth, another person, or another’s property, or where there is reason to believe the youth will flee the court’s jurisdiction. Detention may only be used for youth 10 years of age or older (705 ILCS 405/5-410 and 705 ILCS 405/5-501).

A court must authorize detention through a Detention Hearing in which a judge makes a determination concerning probable cause and “immediate and urgent necessity.” Judges are not accessible at all times, so there is a process (described in the next paragraph) through which detention may be authorized

pending a Detention Hearing. In any event, the Detention Hearing must occur within 40 hours of admission to detention, excluding weekends and holidays.

Most detention admissions occur when a youth cannot be brought immediately to the judge. The Juvenile Court Act allows police to request detention when they reasonably believe “immediate and urgent necessity” exists (705 ILCS 405/5-405). A probation or detention official—a judicial employee—must authorize detention in writing. This decision is based upon a scored admission screening protocol that is approved by the judicial circuit’s chief judge. The admission screening instrument provides a level of objectivity and consistency in detention decisions (705 ILCS 405/5-410).¹ At the Detention Hearing—held within 40 hours of admission—a judge makes the determination of whether continued detention is warranted.

Pre-adjudication detention is limited in length by a requirement that trial take place within 30 calendar days of the detention admission, or at the earliest possible date no more than 45 days from the detention admission. (Slightly longer time limits apply when lab results are pending, in serious violent offenses, or when the State’s Attorney seeks prosecution in adult court. The time limits are also affected

¹Many admission screening protocols allow an “override” of the score to account for situations in which detention seems appropriate, but would not be authorized using the objective point system. Gathering information about whether and how each jurisdiction uses overrides is important in understanding detention practices.

by any delay caused by the youth and by processes to determine fitness for trial. See 705 ILCS 405/5-601.)

Post-adjudication and post-disposition detention typically occurs through judicial order, meaning no screening process is used. As a sentence, detention is limited to 30 days (705 ILCS 405/5-710). The court may hold youth who are sentenced to probation and who later allegedly violate the conditions of this sentence in detention for up to 15 days while awaiting sentencing; at resentencing, as at initial sentencing, 30 days detention may be imposed (705 ILCS 405/5-720). Youth sentenced to a term of detention receive credit for time previously spent in detention for the offense for which they are being sentenced (705 ILCS 405/5-710).

Detention may occur either pre- or post-adjudication as a result of a warrant issued by the court. Warrants may be issued by the court when it determines the youth may endanger him- or herself, or others. As with a youth detained as a result of a screening for a new arrest, a youth detained on a warrant is brought before a judge for a Detention Hearing within 40 hours (705 ILCS 405/5-401).

Finally, under some circumstances, detention is allowable as a sanction when a judge finds a youth in contempt of court.

Detention Terminology

Authorizing County: The County that authorizes the juvenile to be held in a juvenile detention center.

Average Daily Population (ADP): ADP is a calculation of youth using Admission date/time and Release date/time. Midnight is the division between days. If a youth is admitted to detention any time on Monday and exits detention any time on Tuesday, then they are counted as being in detention for two days (even if they get admitted at 11:58 pm and released at 12:04 am). The ADP calculation takes the sum of daily (12:00 a.m. – 11:59 p.m.) population headcounts for the days in the specified timeframe and then divides this total by the number of days in that timeframe.

Average Daily Population (ADP) Index: An Index is a statistical measure of variation among a group of individual data points. The **ADP Index** by Authorizing County is aimed at providing meaningful comparisons among counties, reflecting the youth population age 10-17 in each Illinois County. The **ADP Index calculation** is the ADP for an individual IL county divided by the youth population Age 10-17 for that county; this result is then multiplied by 1,000.

Average Length of Stay (ALOS): See Length of Stay (LOS)

Detention Admission: An entry into any of the Illinois juvenile detention centers during the reporting period (Calendar year 2016). One youth could have more than one entry during the reporting period (2016), which would be recorded as separate admissions.

Juvenile Detention Center: Illinois currently has 16 active juvenile detention centers throughout the state that hold juvenile youth in secure detention. DuPage County Detention Center closed on March 30, 2012; however, any chart (In Trends Section 6) that displays data before March 30, 2012 will include DuPage juvenile detention population data.

Adams County Detention Center
 Champaign County Detention Center
 Cook County Temporary Detention Center
 Franklin County Detention Center
 Kane County Youth Home
 Knox County – Mary Davis Center
 Lake County Detention Center
 LaSalle County Detention Center

Madison County Detention Center
 McLean County Detention Center
 Peoria County Detention Center
 Sangamon County Detention Center
 St. Clair County Detention Center
 Vermilion County Detention Center
 Will County Detention Center
 Winnebago County Detention Center

Juvenile Monitoring Information System (JMIS): JMIS is a web-based data platform which gathers and disseminates data on the detention of youth in all juvenile detention facilities in Illinois. JMIS is a collaborative data system funded by the Illinois Juvenile Justice Commission with support from the Illinois Department of Human Services. JMIS is maintained by the Center for Prevention Research and Development, in the School of Social Work at the University of Illinois, Urbana-Champaign. The Administrative Office of the Illinois Courts requires counties to report data on every admission of a youth to detention. Created initially as a paper-based reporting system, the web-based version of JMIS was launched in 2004, and now captures data from all active juvenile detention centers in the state. Before JMIS, there was no routine statewide collection or analysis of detention data and no process for sharing detention data between state and local practitioners or among counties with shared detention facilities. JMIS has simplified and institutionalized data reporting requirements and allows quick and easy access to the data, real-time reporting for state and local analysis and planning, and easy entry or uploading of data. (A list of all current JMIS online reporting can be found in Appendix 3, page 104.)

Length of Stay (LOS) and Average Length of Stay (ALOS): LOS and ALOS are calculated on the basis of admission and release dates and times for each detention admission, rounded up to the nearest day (using 24 hours as one day.) There is no time-of-day cutoff. If a youth comes into the detention center at 4pm on Monday (date and time of Admission) and leaves at 3pm on Tuesday (date and time of Release), it counts as one day. If the youth comes in at 6pm on Monday and leaves at 7pm on Tuesday, it counts as two days. If a youth was admitted and released in the same day, that is counted as one day. It is possible that the Admission date occurred in the year prior to the reporting year and the Release date occurred in the reporting year. Thus the **Length of Stay (LOS)** is the complete time the youth is housed in a detention facility per admission using the above criteria. The **Average Length of Stay (ALOS)** calculation sums the LOS for all youth admitted within the reporting period and calculates an average in days per admission for that period.

Rate of Detention Admissions by Authorizing County: A Rate is a statistical measure of the frequency of **occurrence** of a given event, like detention admissions in relation to a general population.

The ***Rate of Detention Admissions by Authorizing County*** was calculated by dividing the total number of detention admissions by the IL youth population age 10-17 in each IL County; this fractional result was then then multiplied by 1,000.

The ***Rate of Detention Admissions by Authorizing County by Ethnicity*** was calculated by dividing the total number of detention admissions by the IL youth population age 10-17 in each IL County by Ethnicity; this fractional result was then then multiplied by 1,000.

The ***Rate of Detention Admissions by Authorizing County by Race*** was calculated by dividing the total number of detention admissions by the IL youth population age 10-17 in each IL County by Race; this fractional result was then then multiplied by 1,000.

Reporting Year Parameters: The 2016 calendar year (January – December) is used for reporting in this report for Sections 1-5. Calendar years 2012, 2013, 2014, 2015, and 2016 (January – December) were used for reporting in Section 6.

Data Sources

Juvenile detention data: All juvenile detention data were pulled from the Illinois Juvenile Management Information System – JMIS database, by the Center for Prevention Research and Development at the University of Illinois. (See Detention Terminology for more information about JMIS.) Each detention center utilizes its own data collection system to process, track and monitor youth in their facility. Each detention center is responsible for getting their data into the JMIS system, either by uploading or hand entry, to populate JMIS with de-identified data for state and local analysis and planning. It is the responsibility of the detention centers to ensure that their data are accurate and complete in JMIS.

There may be instances in which some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS, therefore not included within this report.

Calendar year 2016 JMIS data are used in this report. The data were pulled for analysis on November 13, 2017. JMIS is a dynamic database where the data is constantly being updated.

All youth included in this report were held in secure detention. These youth were NOT in Meth Treatment programs or other treatment care.

Population data (calendar year 2016) used in this report were pulled from the OJJDP website (below) in November 2017.

Illinois population data for youth aged 10-17 citation: Puzzanchera, C., Sladky, A. and Kang, W. (2017). "Easy Access to Juvenile Populations: 1990-2016." Online. Available: <http://www.ojjdp.gov/ojstatbb/ezapop/>

Data Coding

JMIS data may be coded or grouped for display in the various data tables and charts provided.

Race/Ethnicity - A data variable was created by combining the Race and Ethnicity JMIS variables. There are 14 Race/Ethnicity Codes: American Indian/Native American/Hispanic; American Indian/Native American/Non-Hispanic; Asian/Hispanic; Asian/Non-Hispanic Black/African American/Hispanic; Black/African American/Non-Hispanic; Multi-Racial/Hispanic; Multi-Racial/Non-Hispanic; Native Hawaiian/Pacific Islander/Hispanic; Native Hawaiian/Pacific Islander/Non-Hispanic; Other/Hispanic; Other/Non-Hispanic; White/Hispanic. The **Race/Ethnicity** (the combined **Race** and **Ethnicity** fields) could not be used when displaying "Rates," since this combination of data was not available on the OJJDP website where the IL population data was obtained. Therefore separate variables for **Race** and **Ethnicity** were used in calculating Rates.

Race: American Indian/Native American; Asian; Black/African American; Multi-Racial; Native Hawaiian/Pacific Islander; Other; White

Ethnicity: Hispanic; Non-Hispanic

Age Groupings: 10-11 years; 12-13 years; 14-15 years; 16-17 years; 18 years and older (18+)

Gender: Female; Male

UCR/Offense Code Groupings: The Illinois Detention Centers use the Illinois Uniform Crime Reporting Codes when entering offense codes into JMIS. For purposes of this report the UCR Codes were grouped into categories: Contempt; Drug; Other; Other-Person; Property; Sex; Status Offense; Violations; Violent; Warrant. (To see the entire list of Illinois UCR Codes and their coding categories, please refer to Appendix 2, Page 97.)

SECTION 1 – 2016 ILLINOIS DETENTION ADMISSIONS
GENDER

**2016 Detention Admissions by Gender,
and %**

| Gender | # | % |
|--------------------|---------------|-------------|
| Female | 1,639 | 16% |
| Male | 8,403 | 84% |
| State Total | 10,042 | 100% |

GENDER AND OFFENSE CATEGORY

| 2016 Detention Admissions by Gender and UCR/Offense Category, # | | |
|--|---------------|--------------|
| UCR Category | Female | Male |
| Contempt | 21 | 82 |
| Drug | 44 | 413 |
| Other | 135 | 1,416 |
| Property | 159 | 1,673 |
| Sex | 1 | 131 |
| Status Offense | 14 | 29 |
| Violations | 96 | 494 |
| Violent | 575 | 2,110 |
| Warrant | 594 | 2,055 |
| State Total | 1,639 | 8,403 |

In the table above, admission counts by gender are displayed. Males have a higher representation in all offense categories.

Under the federal Juvenile Justice and Delinquency Prevention Act, youth charged with status offenses – those that would not be criminal if committed by an adult, like truancy, running away, curfew, or use of tobacco or alcohol – cannot be detained or confined in secure detention or correctional facilities. The data provided in this report are based on detention center documentation and may over-report detention of status offenders. In some cases, the detention center may document admission for a status offense like truancy when in fact the legal basis for detention is a violation of a probation condition to attend school. In this example, the youth is being detained on the underlying delinquency charge for which they were placed on probation, and not for the status offense itself. Federal policy also allows status offenders to be detained for a short period of time before and after initial court hearings. The Commission’s Compliance Monitoring staff review each possible violation individually to determine whether a violation of federal regulation has occurred. Violations are reported to the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention. Excessive violations may negatively jeopardize Illinois’ federal juvenile justice funding.

AGE GROUPING

| 2016 Detention Admissions by Age Grouping, # and % | | |
|---|---------------|---------------|
| Age Groupings | # | % |
| Age 10/11 | 49 | 0.5% |
| Age 12/13 | 573 | 5.7% |
| Age 14/15 | 2,964 | 29.5% |
| Age 16/17 | 5,880 | 58.6% |
| Age 18+ | 576 | 5.7% |
| State Total | 10,042 | 100.0% |

AGE GROUPING AND OFFENSE CATEGORY

| 2016 Detention Admissions by Age Grouping and Offense Category, # | | | | | |
|---|-----------|------------|--------------|--------------|------------|
| UCR Category | Age 10/11 | Age 12/13 | Age 14/15 | Age 16/17 | Age 18+ |
| Contempt | 0 | 7 | 31 | 55 | 10 |
| Drug | 0 | 7 | 87 | 333 | 30 |
| Other | 0 | 66 | 380 | 1,054 | 51 |
| Property | 9 | 128 | 596 | 1,025 | 74 |
| Sex | 2 | 14 | 49 | 60 | 7 |
| Status Offense | 0 | 2 | 13 | 27 | 1 |
| Violations | 3 | 33 | 162 | 313 | 79 |
| Violent | 24 | 205 | 901 | 1,475 | 80 |
| Warrant | 11 | 111 | 745 | 1,538 | 244 |
| State Total | 49 | 573 | 2,964 | 5,880 | 576 |

The greatest number of detention admissions for each offense category was among youth 16-17 years of age, followed by youth 14-15 years of age.

Some readers may have questions about youth who are detained in a juvenile facility when they are 18, 19, or 20 years of age. While any offense committed on or after a youth's 18th birthday is addressed through the adult criminal justice system, youth already on probation or parole can remain under juvenile court jurisdiction until their 21st birthday. During the time a youth is under the juvenile court's jurisdiction, he or she may be detained in a juvenile facility.

2016 Detention Admissions by Age Grouping and Offense Category, #

| | Age 10/11 | Age 12/13 | Age 14/15 | Age 16/17 | Age 18+ |
|----------------|-----------|-----------|-----------|-----------|---------|
| Contempt | 0% | 1% | 1% | 1% | 2% |
| Drug | 0% | 1% | 3% | 6% | 5% |
| Other | 0% | 12% | 13% | 18% | 9% |
| Property | 18% | 22% | 20% | 17% | 13% |
| Sex | 4% | 2% | 2% | 1% | 1% |
| Status Offense | 0% | 0% | 0% | 0% | 0% |
| Violations | 6% | 6% | 5% | 5% | 14% |
| Violent | 49% | 36% | 30% | 25% | 14% |
| Warrant | 22% | 19% | 25% | 26% | 42% |

RACE/ETHNICITY

Note: The ten Race/Ethnicity categories represented in “All Other Race/Ethnicity” each accounted for 238 or less admissions. Admissions for these ten Race/Ethnicity categories had a combined total of 508, or 5% of all admissions to detention.

Race/Ethnicity is a data grouping in which **Race** data and **Ethnicity** data in JMIS for each individual admission are combined to create a new data variable – **Race/Ethnicity**. There are 14 categories for this **Race/Ethnicity** data variable, as detailed in the table below:

| Race/Ethnicity | # | % |
|---|---------------|-------------|
| American Indian/Native American/Hispanic | 1 | 0.0% |
| American Indian/Native American/Non-Hispanic | 15 | 0.1% |
| Asian/Hispanic | 3 | 0.0% |
| Asian/Non-Hispanic | 13 | 0.1% |
| Black/African American/Hispanic | 238 | 2.4% |
| Black/African American/Non-Hispanic | 5,574 | 55.5% |
| Multi-Racial/Hispanic | 14 | 0.1% |
| Multi-Racial/Non-Hispanic | 306 | 3.0% |
| Native Hawaiian/Pacific Islander/Hispanic | 0 | 0.0% |
| Native Hawaiian/Pacific Islander/Non-Hispanic | 8 | 0.1% |
| Other/Hispanic | 178 | 1.8% |
| Other/Non-Hispanic | 38 | 0.4% |
| White/Hispanic | 1,113 | 11.1% |
| White/Non-Hispanic | 2,541 | 25.3% |
| State Total | 10,042 | 100% |

In the three subsequent charts, the four largest **Race/Ethnicity** categories are represented separately; the other (smallest) ten categories are combined into one category “**All Other Race/Ethnicity**” because they comprise only 5% of the overall **Race/Ethnicity** categories. These ten categories are: American Indian/Native American/Hispanic; American Indian/Native American/Non-Hispanic; Asian/Hispanic; Asian/Non-Hispanic; Black/African American/Hispanic; Multi-Racial/Hispanic; Native Hawaiian/Pacific Islander/Hispanic; Native Hawaiian/Pacific Islander/Non-Hispanic; Other/Hispanic; Other/Non-Hispanic.

RACE/ETHNICITY AND OFFENSE CATEGORY

| 2016 Detention Admissions by Race/Ethnicity and Offense Category, # | | | | | |
|--|--|------------------------------------|-------------------------|-----------------------------|-----------------------------------|
| UCR Category | Black / African American / Non-Hispanic | Multi-Racial / Non-Hispanic | White / Hispanic | White / Non-Hispanic | All Other Race / Ethnicity |
| Contempt | 34 | 8 | 11 | 45 | 5 |
| Drug | 254 | 11 | 51 | 95 | 46 |
| Other | 1,014 | 21 | 217 | 184 | 115 |
| Property | 1,037 | 57 | 155 | 493 | 90 |
| Sex | 55 | 2 | 16 | 54 | 5 |
| Status Offense | 6 | 0 | 6 | 28 | 3 |
| Violations | 214 | 30 | 61 | 261 | 24 |
| Violent | 1,609 | 76 | 269 | 600 | 131 |
| Warrant | 1,351 | 101 | 327 | 781 | 89 |
| State Total | 5,574 | 306 | 1,113 | 2,541 | 508 |

White/Non-Hispanics had the highest number of detention admissions for Contempt, Status Offenses and Violations. Black/African American/Non-Hispanics had the highest number of detention admissions for the other six categories of offenses.

2016 Detention Admissions by Race/Ethnicity and Offense Category, %

| | White/ Non-Hispanic | White/ Hispanic | Multi-Racial/ Non-Hispanic | Black/African American/ Non-Hispanic | All Other Race/Ethnicity |
|----------------|---------------------|-----------------|----------------------------|--------------------------------------|--------------------------|
| Contempt | 2% | 1% | 3% | 1% | 1% |
| Drug | 4% | 5% | 4% | 5% | 9% |
| Other | 7% | 19% | 7% | 18% | 23% |
| Property | 19% | 14% | 19% | 19% | 18% |
| Sex | 2% | 1% | 1% | 1% | 1% |
| Status Offense | 1% | 1% | 0% | 0% | 1% |
| Violations | 10% | 5% | 10% | 4% | 5% |
| Violent | 24% | 24% | 25% | 29% | 26% |

Notes: “Other” includes City of Chicago, Illinois Department of Juvenile Justice (IDJJ), INS and Out-of-State admissions.

There may be instances in which some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

Notes: Cook County had 3,095 detention admissions, (30.8%) of all IL detention admissions (not displayed); there were 109 “Other” admissions (which include City of Chicago, Illinois Department of Juvenile Justice (IDJJ), INS and Out-of-State admissions). DuPage County had the 2nd highest number of admissions at 538 (5.4%), and St. Clair County had the 3rd highest number of admissions at 511 (5.1%). The County Median (middle) for detention admission among Illinois’ 102 counties is 14 admissions.

(Admissions by Authorizing County chart continued on following page.)

Counties with zero admissions were Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott and Washington.

There may be instances in which some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

2016 Detention Admissions by Authorizing County

This map does not include Out-of-state or DJJ youth.

Note: Counties with zero admissions were Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott and Washington.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS

SECTION 2 – 2016 ILLINOIS DETENTION ADMISSION RATES

Data Source for Illinois Youth Population: Puzzanchera, C., Sladky, A. and Kang, W. (2017). "Easy Access to Juvenile Populations: 1990-2016." Online. Available: <http://www.ojjdp.gov/ojstatbb/ezapop/>

GENDER

For youth age 10-17 in Illinois in 2015, for each 1,000 females, approximately 3 were admitted to detention; for each 1,000 males, approximately 13 were admitted to detention.

AGE GROUPING

The **Rate of Detention Admissions** was calculated by dividing the total number of detention admissions by the IL youth population age 10-17 in each IL county, the result was then multiplied by 1,000.

| Gender | # Admissions | IL Population Age 10-17 | Rate/1000 |
|--------------------|---------------|-------------------------|------------|
| Female | 1,639 | 659,364 | 2.5 |
| Male | 8,403 | 688,229 | 12.2 |
| State Total | 10,042 | 1,347,593 | 7.5 |

| Age | # Admissions | IL Population Age 10-17 | Rate/1000 |
|--------------------|--------------|-------------------------|------------|
| Age 10/11 | 49 | 331,918 | 0.1 |
| Age 12/13 | 573 | 335,400 | 1.7 |
| Age 14/15 | 2,964 | 336,933 | 8.8 |
| Age 16/17 | 5,880 | 343,342 | 17.1 |
| State Total | 9,466 | 1,347,593 | 7.0 |

NOTE: 18+ year-olds are not included in the table above.

RACE

The detention admission rate of 24.7 per 1,000 youth for Black/African American youth age 10-17 was over 3 times that of the rate of 7.5 per 1,000 for all youth age 10-17. The rates for all other racial groups were well below the statewide rate of 7.5 per 1,000.

ETHNICITY

The detention admission rate per 1,000 youth age 10-17 was nearly twice as high for Non-Hispanic youth age 10-17 (8 youth per 1,000) than for Hispanic youth in that same age range (less than 5 youth per 1,000)

2016 Rate of Detention Admissions by Illinois Youth Population Age 10-17 per 1,000, by Race

| Race | # Admissions | IL Population Age 10-17 | Rate/1000 |
|---------------------------------|--------------|-------------------------|-----------|
| American Indian/Native American | 16 | 12,765 | 1.3 |
| Asian | 16 | 73,665 | 0.2 |
| Black/African American | 5,812 | 235,719 | 24.7 |
| White | 3,654 | 1,025,444 | 3.6 |

NOTE: For Multi-Racial, Native Hawaiian/ Pacific Islander, and Other, Ages 10-17, there were no data available on total Illinois population. Therefore, State Totals for Race categories are not listed in the table above.

2016 Rate of Detention Admissions by Illinois Youth Population Age 10-17 per 1,000, by Ethnicity

| Ethnicity | # Admissions | IL Population Age 10-17 | Rate/1000 |
|--------------------|---------------|-------------------------|------------|
| Hispanic | 1,547 | 325,947 | 4.7 |
| Non-Hispanic | 8,495 | 1,021,646 | 8.3 |
| State Total | 10,042 | 1,347,593 | 7.5 |

NOTE: Throughout this Detention Report Race and Ethnicity are combined into one variable - **Race/Ethnicity**, except on the pages where RATES are calculated. The OJJDP website (where the Illinois Youth population data was obtained) only provides Race and Ethnicity as separate data variables and they were not able to be combined for purposes of this report.

RACE BY GENDER

2016 Rate of Detention Admissions by Illinois Youth Population Age 10-17 per 1,000, by Race by Gender

2016 Rate of Detention Admissions by Illinois Youth Population Age 10-17 per 1,000, by Race by Gender

| Race | # Admissions | IL Population Age 10-17 | Rate / 1,000 |
|---------------------------------|--------------|-------------------------|--------------|
| American Indian Female | 3 | 6,267 | 0.5 |
| American Indian Male | 13 | 6,498 | 2.0 |
| Asian Female | 3 | 36,609 | 0.1 |
| Asian Male | 13 | 37,056 | 0.4 |
| Black / African-American Female | 813 | 116,305 | 7.0 |
| Black / African-American Male | 4,999 | 119,414 | 41.9 |
| White Female | 696 | 500,183 | 1.4 |
| White Male | 2,958 | 525,261 | 5.6 |

NOTE: For Multi-Racial, Native Hawaiian/Pacific Islander, and Other, Ages 10-17, there were no data available on total Illinois population. Therefore State Total for Race is not listed in the table above.

| Woodford | 14 | 4,564 | 3.1 |
| State Total | 9,933 | 1,347,593 | 7.4 |

Notes: "Other" includes Illinois Department of Juvenile Justice (IDJJ), and Out-of-State admissions and is not listed here because it has no population denominator to determine "rate."

The **Rate of Detention Admissions** was calculated by dividing the total number of detention admissions in each IL County by the youth population age 10-17 in that county; the result was then multiplied by 1,000.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

**2016 Rate of Detention Admissions by IL Youth Population
Age 10-17 per 1,000 by Authorizing County**

Vermilion, Jefferson, Peoria, Perry, and Hardin, had the highest detention admission rates across all counties, ranging from 25.9 to 20.7 per 1,000 youth age 10-17. The state Rate of Detention Admissions was 7.4 per 1,000 youth age 10-17.

The following counties had zero admissions and are not included in the table - Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott, and Washington.

(Admissions Rates by Authorizing County table continued on following page)

**2016 Rate of Detention Admissions by IL Youth Population
Age 10-17 per 1,000 by Authorizing County**

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

2016 Detention Admission Rates

2016 Rate of Detention Admissions by Authorizing County (per 1,000 Illinois youth aged 10-17 years)

*Counties divided into four equal groups by quartiles

The **Rate of Detention Admissions** was calculated by dividing the total number of detention admissions by the IL youth population ages 10-17 in each IL County, then multiplied by 1,000.

| Woodford | 2 | 76 | 26.3 | 12 | 4,442 | 2.7 |
| State Total | 5,812 | 235,719 | 24.7 | 3,594 | 1,025,444 | 3.5 |

Note: All racial categories were not included in this table due to small admission numbers. The **Rate of Detention Admissions by Authorizing County by Race** was calculated by dividing the total number of detention admissions by the IL youth population age 10-17 in each IL County by Race; this fractional result was then then multiplied by 1,000.

2016 Detention Admission Rate per 1,000 youth for Blacks in Illinois Counties with # of Rate >0.0

These 58 Counties had at least 1 detention admission with Race identified as Black. The remaining 44 Counties (not listed) had 0 admissions identified as Black.

2016 Detention Admission Rate per 1,000 youth for Whites in Illinois Counties with Rate >5.0

The following Counties had 0 admissions of White youths: Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott, Shelby and Washington; these are not included on the chart above or on the next page.

2016 Detention Admission Rate per 1,000 youth for Whites in Illinois Counties with Rate <5.0

AUTHORIZING COUNTY BY ETHNICITY

**2016 Rate of Detention Admissions by Illinois Youth Population Age 10-17
per 1,000 youth by Authorizing County by Ethnicity**

NOTES: Average Daily Population (ADP) Index - An **Index** is a statistical measure of variation among a group of individual data points. The **ADP Index** by Authorizing County is aimed at providing meaningful comparisons among counties, reflecting the youth population age 10-17 in each Illinois County. The **ADP Index calculation** is the ADP for each county divided by the IL youth population Age 10-17 for that county, and then multiplied by 1,000.

The range of this index for 2016 was from 0.00 (Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott and Washington) to 1.91 (Vermilion). The state-level index was 0.48. A total of 74 of 102 counties have an index below or equal to the state index. The remaining 28 counties have an index greater than the state-level index (see charts on the following two pages). These 28 counties include 55% of IL youth Age 10-17.

There may be instances in which some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

2016 Index of Average Daily Population (ADP) by IL Youth Population Age 10-17 by Authorizing County

(Index of ADP by IL youth population continued on following page.)

This ADP Index was calculated by dividing the ADP for each county by the IL youth population Age 10-17 for that county, then multiplying that result by 1,000. There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

2016 Average Daily Population (ADP) Index by Authorizing County (per 1,000 Illinois youth aged 10-17 years)

*Counties divided into four equal groups by quartiles

This ADP Index was calculated by dividing the ADP for each IL County by the youth population Ages 10-17 for that county, and then multiplying that result by 1,000.

SECTION 3 – 2016 ILLINOIS DETENTION CENTER ADMISSIONS

The Detention Centers listed in the following charts and tables are locations where youth are detained. When a county is listed below the Detention Center heading, this refers to the county where the detention center is located; and not necessarily the county that authorized the juvenile to be detained.

DETENTION CENTERS

This pie chart represents the percentage of total admissions for all 16 juvenile detention centers. Cook County Detention has the highest percentage of total admissions across the state with 31%; and LaSalle County Detention has the lowest percentage of total admissions across the state with 1%.

| 2016 Detention Admissions by Detention Center, # and % | | |
|--|--------------------------------------|--------------------------------------|
| Detention Centers | # of Admissions by Detention Centers | % of Admissions by Detention Centers |
| Adams County | 242 | 2% |
| Champaign County | 341 | 3% |

SECTION 4 – 2016 ILLINOIS DETENTION AVERAGE LENGTH OF STAY (ALOS) AND LENGTH OF STAY (LOS)

ALOS BY GENDER

Length of Stay (LOS) and Average Length of Stay (ALOS): LOS and ALOS are calculated on the basis of admission and release dates and times for each detention admission, rounded up to the nearest day (using 24 hours as one day.) There is no time-of-day cutoff. If a youth comes into the detention center at 4pm on Monday (date and time of Admission) and leaves at 3pm on Tuesday (date and time of Release), it counts as one day. If the youth comes in at 6pm on Monday and leaves at 7pm on Tuesday, it counts as two days. If a youth was admitted and released in the same day, that is counted as one day. It is possible that the Admission date occurred in the year prior to the reporting year and the Release date occurred in the reporting year.

Thus the **Length of Stay (LOS)** is the complete time the youth is housed in a detention facility per admission using the above criteria. The **Average Length of Stay (ALOS)** calculation sums the LOS for all youth admitted within the reporting period and calculates an average in days per admission for that period.

Calendar year 2016 JMIS data are used in this report. The data were pulled for analysis on November 13, 2017. JMIS is a dynamic database where the data is constantly being updated.

ALOS BY AGE GROUPING

ALOS BY RACE/ETHNICITY

The following Race/Ethnicity groupings are not included in the chart above because they had very small or no admissions: American Indian/Native American/Hispanic and Native Hawaiian/Pacific Islander/Hispanic.

| Woodford | 1 | 2 | 7 | 4 | 14 |
| State Total | 3,797 | 1,659 | 2,870 | 1,716 | 10,042 |

“Other” includes Illinois Department of Juvenile Justice (IDJJ), INS, and Out-of-State admissions.

Counties with zero admissions were Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott and Washington.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

2016 Detention Length of Stay (LOS) by LOS Category in days by Authorizing County with >19 Admissions

These 44 counties + “Other” with greater than 19 admissions accounted for less than 96% of juvenile detention admissions. The remaining 49 counties with <20 admissions accounted for a little more than 4% of juvenile detention admissions, and are displayed on the following 2 pages. They were separated due to the fact that their small numbers may distort the percentages of LOS categories associated with those counties. “Other” includes Illinois Department of Juvenile Justice (IDJJ), INS, and Out-of-State admissions.

- Counties with greater than 50% of their admissions (> 19) with LOS <1-3 days were DuPage, Macon, McLean, Saline, and St. Clair.
- Counties with greater than or equal to 30% of their admissions with LOS 31 or more days were Iroquois, Fayette, LaSalle, and Winnebago.
- Counties with greater than or equal to 20% and less than 30% of their admissions with LOS 31 or more days were Bureau, Cook, Fulton, Jackson, Lake, Peoria, Tazewell, Vermilion, and Warren.

2016 Detention Length of Stay (LOS) by LOS Category in days by Authorizing County with <20 Admissions

(Continued on next page)

The LOS percentages of the 49 counties on this page and the previous page are more likely to be distorted due to a small total n.

- Counties with greater than or equal to 50% of their admissions with LOS <1-3 days were Cass, Greene, Jersey, Monroe, Moultrie, Pope, Pulaski, Schuyler, Wayne, and White.
- Counties with greater than or equal to 30% of their admissions with LOS 31 or more days were Douglas, Edwards, Hamilton, Henry, Jasper, Randolph, Richland, and Stark.
- Counties with greater than 20% and less than 30% of their admissions with LOS 31 or more days were Carroll, Cass, Edgar, Ford, Mason, Mercer, Wabash, and Woodford.
- Nine counties had zero admissions: Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott, and Washington.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

2016 Detention Length of Stay (LOS) by LOS Category in days by Detention Center, %

■ <1-3 Days ■ 4-8 Days ■ 9-30 Days ■ 31 or More Days

At Cook, Lake, LaSalle, Peoria, and Winnebago County Detention Centers, youth held for 31 or more days comprised over 20% of their overall youth admissions. At Kane, McLean, St. Clair, Sangamon and Will County Detention Centers, youth held for <1 to 3 days comprised 40% or more of all of their admissions.

2015 AND 2016 DETENTION DATA COMPARISON BY AUTHORIZING COUNTY BY LOS

Chart does not display youth in "Other" category

SECTION 5 – 2016 ILLINOIS DETENTION AVERAGE DAILY POPULATION (ADP)

GENDER

| 2016 Average Daily Population (ADP) by Gender, # | |
|--|--------------|
| Gender | ADP |
| Female | 61.7 |
| Male | 589.0 |
| State Total | 650.7 |

AGE GROUPING

| 2016 Average Daily Population (ADP) by Age Grouping, # | |
|--|--------------|
| Age Group | ADP |
| # Age Group 10/11 | 1.6 |
| # Age Group 12/13 | 30.5 |
| # Age Group 14/15 | 201.6 |
| # Age Group 16/17 | 397.1 |
| # Age Group 18+ | 19.9 |
| State Total | 650.7 |

Average Daily Population (ADP): ADP is a calculation of youth using Admission date/time and Release date/time. Midnight is the division between days. If a youth is admitted to detention any time on Monday and leaves any time on Tuesday, then they are counted as being in detention for two days (even if they get admitted at 11:58 pm and released at 12:04 am). The ADP calculation takes the sum of daily (12:00 a.m. – 11:59 p.m.) population headcounts for the relevant categories (age, gender, etc.) for the days in the specified timeframe (2016) and then divides this total by the number of days (365) in that timeframe.

RACE/ETHNICITY

| 2016 Average Daily Population (ADP) by Race/Ethnicity, # | |
|--|--------------|
| Race/Ethnicity | ADP |
| American Indian/Native American/Hispanic | 0.3 |
| American Indian/Native American/Non-Hispanic | 0.8 |
| Asian/Hispanic | 0.5 |
| Asian/Non-Hispanic | 1.0 |
| Black/African American/Hispanic | 60.2 |
| Black/African American/Non-Hispanic | 359.4 |
| Multi-Racial/Hispanic | 0.5 |
| Multi-Racial/Non-Hispanic | 12.1 |
| Native Hawaiian/Pacific Islander/Non-Hispanic | 0.5 |
| Other/Hispanic | 12.0 |
| Other/Non-Hispanic | 2.3 |
| White/Hispanic | 82.2 |
| White/Non-Hispanic | 118.9 |
| State Total | 650.7 |

OFFENSE CATEGORY

| 2016 Average Daily Population (ADP) by UCR/Offense Category, #,% | |
|--|--------------|
| UCR/Offense Category | ADP |
| Contempt | 8.9 |
| Drug | 18.6 |
| Other | 98.4 |
| Property | 100.6 |
| Sex | 23.4 |
| Status Offense | 1.1 |
| Violations | 30.5 |
| Violent | 245.9 |
| Warrant | 123.3 |
| State Total | 650.7 |

The pie chart and table above display the state's detention population by offense category. The offense categories with the highest average daily population (ADP) are Violent offenses (246, 40%), Warrant (123, 18%), and both Property and Other offenses (101 and 98, 15%). The offense with the lowest average daily population are Status Offenses (1, .2%), and Contempt offenses (9, 1%).

AUTHORIZING COUNTY

| 2016 Average Daily Population (ADP) by Authorizing County by Offense Category >1.5 Total ADP, # | | | | | | | | | | |

| Tazewell | 0.0 | 0.0 | 0.4 | 1.2 | 0.0 | 0.0 | 0.4 | 1.8 | 1.2 | 5.0 |
| Vermilion | 0.8 | 0.0 | 1.7 | 3.0 | 0.3 | 0.2 | 1.6 | 4.0 | 4.3 | 16.0 |
| Will | 4.7 | 0.6 | 1.5 | 2.0 | 0.6 | 0.0 | 1.8 | 6.7 | 6.3 | 24.2 |
| Winnebago | 0.0 | 0.2 | 4.8 | 9.9 | 0.0 | 0.0 | 6.7 | 9.0 | 15.7 | 46.5 |
| Total - 33 Counties + Other | 8.8 | 17.4 | 96.0 | 93.6 | 21.6 | 1.0 | 26.7 | 240.4 | 116.2 | 621.7 |

33 counties (plus "Other") are listed above and all have an ADP greater than 1.5 and represent slightly less than 96% of the total ADP. 69 Counties with ADP <1.5 are not displayed on the chart above due to their small ADP, which collectively account for slightly more than 4% of statewide ADP.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

| Winnebago | 0% | 0% | 10% | 21% | 0% | 0% | 14% | 19% | 34% | 100% |
| Total - 33 Counties + Other | 1% | 3% | 15% | 15% | 3% | 0% | 4% | 39% | 19% | 100% |

33 counties (plus "Other") are listed above and all have an ADP greater than 1.5 and represent slightly less than 96% of the total ADP. 69 Counties with ADP <1.5 are not displayed on the chart above due to their small ADP, which collectively account for slightly more than 4% of statewide ADP. "Other" includes admissions from City of Chicago, Illinois Department of Juvenile Justice (IDJJ), INS and Out-of-State.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

33 counties (plus “Other”) are listed above and all have an ADP greater than 1.5 and represent slightly less than 96% of the total ADP. 69 Counties with ADP <1.5 are not displayed on the chart above due to their small ADP, which collectively account for slightly more than 4% of statewide ADP. “Other” includes admissions from City of Chicago, Illinois Department of Juvenile Justice (IDJJ), INS and Out-of-State.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

2016 Average Daily Population (ADP) by Authorizing County, #*Authorizing County is the county that authorizes the detention of the youth.*

| Authorizing County | ADP |
|--------------------|-------|
| Adams | 5.0 |

| State Total | 650.7 |

Notes: All 93 counties + "Other" listed above had at least one admission, even if its ADP is listed as 0.0.

Counties with zero admissions are not included in this table: Alexander, Brown, Calhoun, Gallatin, Johnson, Marshall, Putnam, Scott, and Washington.

"Other" includes admissions from Illinois Department of Juvenile Justice (IDJJ), INS, and Out-of-State.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

- Cook County is not displayed in the chart above due to its large n as compared to the other counties. Cook had an ADP of 296.9, or 46% of statewide ADP.
- The 31 IL counties + “Other” displayed in the chart above accounted for 50% of the statewide ADP. The remaining 70 IL counties (not displayed) all had less than 1.5 ADP and accounted for 5% of statewide ADP. “Other” includes admissions from City of Chicago, Illinois Department of Juvenile Justice (IDJJ), INS, and Out-of-State.

There may be instances where some Illinois youth are detained in detention facilities outside of Illinois even though the delinquent behavior (or alleged delinquent behavior) occurred in Illinois. When this occurs, these data are not entered into JMIS.

DETENTION CENTER

| 2016 Average Daily Population (ADP) by Detention Center | |
|--|--------------|
| Detention Centers | ADP |
| Adams County | 9.8 |
| Champaign County | 19.3 |
| Cook County | 296.9 |
| Franklin County | 15.4 |
| Kane County | 39.7 |
| Knox County | 20.0 |

| St. Clair County | 21.2 |
| Sangamon County | 13.3 |
| Vermilion County | 20.2 |
| Will County | 33.5 |
| Winnebago County | 47.4 |
| State Total | 650.6 |

SECTION 6 – 2016 ILLINOIS DETENTION ADMISSIONS TRENDS DATA

TOTAL ILLINOIS YOUTH POPULATION 10-17 YEARS OF AGE

| 2011-2015 Illinois Youth Population and Detention Admissions | | | | | | % Change 2012-2016 |
|--|-----------|-----------|-----------|-----------|-----------|-----------------------|
| | 2012 | 2013 | 2014 | 2015 | 2016 | |
| Total IL Admissions | 11,875 | 11,631 | 12,039 | 11,122 | 10,042 | -15% |
| Population Age 10-17 | 1,398,106 | 1,381,863 | 1,369,463 | 1,357,467 | 1,347,593 | -4% |

GENDER

| 2012-2016 Detention Admissions by Gender | | | | | | |
|--|---------------|---------------|---------------|---------------|---------------|--------------------|
| | 2012 | 2013 | 2014 | 2015 | 2016 | % Change 2012-2016 |
| Female | 1,990 | 1,915 | 1,987 | 1,824 | 1,639 | -18% |
| Male | 9,885 | 9,716 | 10,052 | 9,298 | 8,403 | -15% |
| State Total | 11,875 | 11,631 | 12,039 | 11,122 | 10,042 | -15% |

Female admissions decreased by 18% and Male admissions decreased by 15% over the 5 years displayed.

AGE GROUPING

| 2012-2016 Detention Admissions by Age Grouping | | | | | | |
|--|--------|--------|--------|--------|--------|--------------------|
| | 2012 | 2013 | 2014 | 2015 | 2016 | % Change 2012-2016 |
| Age 10-11 | 70 | 46 | 46 | 54 | 49 | -30% |
| Age 12-13 | 754 | 764 | 722 | 656 | 573 | -24% |
| Age 14-15 | 4,236 | 4,208 | 3,620 | 3,296 | 2,964 | -30% |
| Age 16-17 | 6,295 | 6,036 | 7,125 | 6,566 | 5,880 | -7% |
| Age 18+ | 520 | 577 | 526 | 550 | 576 | 11% |
| State Total | 11,875 | 11,631 | 12,039 | 11,122 | 10,042 | -15% |

Admissions for most age groupings decreased from 2012 to 2016. Ages 10-11 decreased 30%, ages 12-13 decreased 24%, ages 14-15 decreased 30%, ages 16-17 decreased 7%, but ages 18+ increased 11% over the 5 year time frame.

RACE/ETHNICITY

| 2012-2016 Detention Admissions by Race/Ethnicity | | | | | | |
|--|--------|--------|--------|--------|--------|--------------------|
| | 2012 | 2013 | 2014 | 2015 | 2016 | % Change 2012-2016 |
| American Indian/Native American/Hispanic | 0 | 0 | 0 | 0 | 1 | NA |
| American Indian/Native American/Non-Hispanic | 9 | 8 | 0 | 8 | 15 | 67% |
| Asian/Hispanic | 0 | 0 | 0 | 0 | 3 | NA |
| Asian/Non-Hispanic | 12 | 19 | 16 | 20 | 13 | 8% |
| Black/African American/Hispanic | 3 | 9 | 22 | 16 | 238 | 7833% |
| Black/African American/Non-Hispanic | 6,979 | 6,953 | 7,404 | 6,585 | 5,574 | -20% |
| Multi-Racial/Hispanic | 24 | 17 | 30 | 24 | 14 | -42% |
| Multi-Racial/Non-Hispanic | 290 | 313 | 292 | 333 | 306 | 6% |
| Native Hawaiian/Pacific Islander/Hispanic | 1 | 1 | 0 | 1 | 0 | NA |
| Native Hawaiian/Pacific Islander/Non-Hispanic | 0 | 1 | 1 | 2 | 8 | NA |
| Other/Hispanic | 31 | 28 | 35 | 55 | 178 | 474% |
| Other/Non-Hispanic | 46 | 34 | 47 | 45 | 38 | -17% |
| White/Hispanic | 1,403 | 1,327 | 1,388 | 1,334 | 1,113 | -21% |
| White/Non-Hispanic | 3,077 | 2,922 | 2,804 | 2,699 | 2,541 | -17% |
| State Total | 11,875 | 11,632 | 12,039 | 11,122 | 10,042 | -15% |

The Race/Ethnicity category is a combination of the Race and Ethnicity categories that are used in JMIS. Using these combinations offers a different perspective on the data. While 10 of the categories are combined in “All Other Race/Ethnicity in the above chart, data for each category can be seen in the table at the top of the page. The chart shows that Black/African American/Non-Hispanics had an overall decrease in admissions of 20% from 2012 to 2016. White/Non-Hispanics had a steady decrease in admissions of 17%, White/Hispanics had a decrease of 21%, and Multi-Racial/Non-Hispanics had an increase of 6% over this 5 year period.

OFFENSE CATEGORY

| | 2012 | 2013 | 2014 | 2015 | 2016 | % Change 2011-2015 |
|--------------------|---------------|---------------|---------------|---------------|---------------|-----------------------|
| Contempt | 269 | 459 | 179 | 130 | 103 | -62% |
| Drug | 631 | 681 | 705 | 558 | 457 | -28% |
| Other | 1,074 | 1,131 | 1,388 | 1,310 | 1,551 | 44% |
| Property | 2,311 | 2,147 | 2,277 | 2,084 | 1,832 | -21% |
| Sex | 202 | 171 | 180 | 162 | 132 | -35% |
| Status Offense | 68 | 68 | 65 | 51 | 43 | -37% |
| Violations | 783 | 812 | 826 | 723 | 590 | -25% |
| Violent | 2,905 | 2,776 | 3,039 | 2,836 | 2,685 | -8% |
| Warrant | 3,630 | 3,384 | 3,378 | 3,268 | 2,649 | -27% |
| State Total | 11,873 | 11,629 | 12,037 | 11,122 | 10,042 | -15% |

All offenses (except “Other”) have decreased over this 5 year time frame. Contempt offenses have seen the greatest decrease at 62%, followed by status offenses with a decrease of 37%. All other offense categories decreased between 8% to 35%.

DETENTION ADMISSIONS ALOS

| 2012-2016 Detention Admissions by Average Length of Stay (ALOS) in Days | | | | | | |
|---|------|------|------|------|------|-----------------------|
| | 2012 | 2013 | 2014 | 2015 | 2016 | % Change 2012-2016 |
| ALOS (days) | 19 | 19 | 20* | 21* | 23 | 21% |

Note: The ALOS for 2013 was changed from 20 in the 2013 report to 19 in this report due to a rounding error.

The Average Length of Stay in “days” for ALL detention admissions from 2012 to 2016 increased 21%.

*Note: Corrections/updates made by some detention centers to previous year’s (2014 and 2015) detention center’s data, created some changes to the previously reported statewide detention admissions average length of stay (ALOS).

DETENTION ADMISSIONS ADP

| 2012-2016 Detention Admissions by Average Daily Population (ADP) | | | | | | |
|--|-------|-------|-------|-------|-------|-----------------------|
| | 2012 | 2013 | 2014 | 2015 | 2016 | % Change 2012-2016 |
| ADP | 663.2 | 653.2 | 757.3 | 724.4 | 650.7 | -2% |

The Average Daily Population from 2012 -2016 decreased by 2%.

APPENDIX

HOW TO READ THE TABLES AND CHARTS

Charts are visual representations of data. Using charts to display data often makes it easier to understand and interpret the data because it is easier to see trends or patterns emerge than looking at the raw data alone. There are multiple types of charts used in this document, and they are used to serve different purposes as described below.

Pie Charts

Pie charts are often used to display percentages. Each “slice” of the pie represents one part of the whole. In the example below, the red “slice” displays that violent detention admission offenses make up 26% of ALL detention admission offenses in 2015. All of the “slices” of the pie when combined equal the whole or 100%.

Column Charts

Column charts are used to show comparisons between items of data. The length of a column on a column chart represents the value of a data point in a single series of data points.

In the chart below, Age categories are displayed along the horizontal axis, and the quantitative values of Average Length of Stay (in days) are displayed along the vertical axis.

Bar Charts

Bar charts illustrate comparisons between items of data similar to Column charts; the difference is that the axes are merely reversed. Categories are organized vertically and values horizontally. In the chart below, the vertical axis displays IL Counties and the horizontal axis displays the Rate of Admissions per 1,000 IL Youth Age 10-17, for approximately half of Illinois counties; it also displays the overall state rate.

Cluster Bar Charts

Cluster charts represent both primary and secondary raw quantitative data series. They are used to compare related data by clustering them together. Instead of viewing only one layer of information, clusters allow you to compare and contrast data within a category and between categories.

In this cluster bar chart, Offense Category is on the vertical axis and Length of Stay (LOS) in days is on the Horizontal axis.

Stacked Percentage Bar Charts

Stacked percentage bar charts represent primary and secondary series of data in percentage form rather than raw quantitative form. All primary series data points are represented as a total of 100%. All secondary series data points are represented as a percentage of the corresponding primary data point quantitative value.

In this stacked percentage bar chart, the primary series is Offense Category, and the secondary series is Age Group. The raw quantitative data can be displayed in the table below the chart, as it is in this case.

Line Charts

Line Charts are used to show trends over time. Each line in the graph shows the changes in the value of one item of data.

In this line chart Admissions by Gender is represented over a 5-year period for all gender categories listed.

Choropleth Map

A Choropleth Map is a thematic map in which areas are shaded or patterned in proportion to the measurement of the statistical variable being displayed on the map, such as detention admissions by authorizing county.

The Choropleth Map provides an easy way to visualize how a measurement varies across a geographic area.

2015 Detention Admissions by Authorizing County

UCR CODES AND CATEGORIES

ILLINOIS UNIFORM CRIME REPORTING (UCR) CODES AND DESCRIPTIONS

| UCR CODE | OFFENSE DESCRIPTION | OFFENSE CATEGORY |

JMIS ONLINE REPORT

The JMIS website includes a number of standardized reports that authorized users with the appropriate permissions can generate at any time. These standardized report formats were designed by a JMIS users group in order to provide the information most needed by state and local practitioners. Current online standardized reports include:

By Detention Facility

New Detainees
 New Detainees by Offense Type, Gender, etc.
 Average Length of Stay
 Average Daily Population
 Current List of Detainees
 Chronological Entries
 Detention Facility Admissions
 JMIS Juvenile Detention Form
 Transportation Records

By Authorizing County

New Detainees
 New Detainees by Offense Type, Gender, etc.
 Average Length of Stay
 Average Daily Population
 Current List of Detainees
 Status Offenders/Totals
 Delinquent Status Offender Violations
 Detention Facility Admissions

By Judicial Circuit:

New Detainees
 New Detainees by Offense Type, Gender, etc.
 Average Length of Stay
 Average Daily Population
 Current List of Detainees
 Status Offenders
 Detention Facility Admissions

By Statewide:

New Detainees
 New Detainees by Offense Type, Gender, etc.
 Average Length of Stay
 Average Daily Population
 Current List of Detainees
 Status Offenders/Totals
 Delinquent Status Offender Violations
 Chronological Entries
 Detention Facility Admissions
 JMIS Juvenile Detention Form
 Transportation Record
