

# JMIS Monthly Data Report.

Calendar Year 2020 and March 2020

The Illinois Juvenile Justice Commission (IJJC) is an advisory group responsible for administering federal juvenile justice grants, ensuring compliance with the Juvenile Justice and Delinquency Prevention Act, and advising the Governor and General Assembly on matters of juvenile justice. More information about IJJC is available at <http://ijjc.illinois.gov>.

The Center for Prevention Research and Development (CPRD) within the School of Social Work at the University of Illinois, Urbana-Champaign, created this report. CPRD seeks to support public policy in three ways: improving state and community capacity for prevention; improving prevention and educational practices through research and evaluation; and improving policies and decision making. More information about CPRD is available at <http://www.cprd.illinois.edu>

## Introduction to JMIS Monthly Data Report

This report provides a summary of juvenile detention admissions for March 2020, comparison data between March 2019 and March 2020, Length of Stay for calendar year 2020, Admissions by Age for calendar year 2020 and summaries on Presenting Offense. This brief report is divided into three sections covering Juvenile Detention Centers, Authorizing Counties and Presenting Offenses.

### Data Source

Juvenile detention data is derived from the Juvenile Monitoring Information System (JMIS). JMIS is a web-based data platform which gathers and disseminates data on the detention of youth in all juvenile detention facilities in Illinois. JMIS is a collaborative data system funded by the Illinois Juvenile Justice Commission with support from the Illinois Department of Human Services. JMIS is maintained by the Center for Prevention Research and Development, in the School of Social Work at the University of Illinois, Urbana-Champaign.

The Administrative Office of the Illinois Courts requires counties to report data on every admission of a youth to detention. Each detention center utilizes its own data collection system to process, track and monitor youth in their facility. Each detention center is responsible for getting their data into the JMIS system, either by uploading or hand entry, to populate JMIS with de-identified data for state and local analysis and planning. It is the responsibility of the detention centers to ensure that their data are accurate and complete in JMIS.

JMIS is a dynamic database constantly updated by the 16 juvenile detention centers in Illinois. Therefore, the data submission frequency of any given detention center may affect the data contained within this report. The data for this report was pulled from the JMIS database on May 6<sup>th</sup>, 2020. When detention centers experience technical difficulties with either uploading or manually entering data into JMIS, a notation has been added to the resulting summaries that have been affected.
